#### **Notes to Financial Statements**

Description of Business and Basis of Presentation

#### Overview

The Company is looking for investment opportunities in the technology sector and in particular emerging technologies such as IoT, Blockchain and Green technologies. The company focuses its efforts on investment opportunities with ongoing projects which provide short-term cash flow and profitability for its shareholders. The Company uses different databases that list both private and public companies and explores whether they have significant upside opportunity.

The impact of blockchain technology is quickly rippling through several sectors, far more than just Bitcoin and cryptocurrencies, for example: art, finance, government, healthcare, media and other sectors. New and innovative use cases are emerging every day, and especially over the last 18 months. The Company is very optimistic on the significant impact blockchain transformation will have on several sectors, and that the emerging opportunities will only accelerate in the near future.

Additionally, the Company is also pursuing opportunities that have come to the attention of management. These opportunities are being evaluated and the Company may invest in them in exchange for shares and revenue sharing or outright acquisition.

Certain amounts in the prior period financial statements have been reclassified to conform to the current period presentation. These reclassifications had no effect on previously reported losses, total assets or stockholders' equity.

#### **General Organization and Business**

These financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. As of August 31, 2021, the Company had not yet achieved profitable operations, had accumulated losses of \$33,205,716 since inception and is expected to incur further losses in the development of its business, which cast substantial doubt about the Company's ability to continue as a going concern, the financial statements have not been adjusted to reflect this.

The Company's ability to continue as a going concern is dependent upon future profitable operations and/or the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management has obtained additional funds by related party's advances; however, there is no assurance that this additional funding is adequate and further funding may be necessary.

#### **Significant Accounting Policies**

This summary of significant accounting policies of the Company is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. These accounting policies conform to GAAP and have been consistently applied in the preparation of the financial statements.

These financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America and are stated in US dollars. Because a precise determination of many assets and liabilities is dependent upon future event, the preparation of financial statements for a period necessarily involves the use of estimates which have been made using careful judgment. Actual results may differ from these estimates. The financial statements have, in management's opinion, been properly prepared within the framework of the significant accounting policies summarized below:

#### Cash and cash equivalents

Cash and cash equivalents consist of cash on deposit with banks. Cash equivalents represent money market funds or short-term investments with original maturities of three months or less from the date of purchase, except for those amounts that are held in the investment portfolio which are invested for long-term purposes.

#### Financial Instruments

The carrying values of cash, accounts receivable, accounts payable, promissory notes payable and due to related parties' approximate fair value because of the short-term nature of these instruments. Management is of the opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments.

# Stock Issued in Exchange for Services

The valuation of common stock issued in exchange for services is valued at an estimated fair market value as determined by officers and directors of the Company based upon other sales and issuances of the Company's common stock within the same general time period.

# Foreign Currency Translation

The Company translates foreign currency transactions and balances to its reporting currency, United States Dollars, in accordance with ASC 830, "Foreign Currency Matters". Monetary assets and liabilities are translated into the functional currency at the exchange rate in effect at the end of the relevant reporting period. Non-monetary assets and liabilities are translated at the exchange rate prevailing when the assets were acquired, or the liabilities assumed. Revenue and expenses are translated at the rate approximating the rate of exchange on the transaction date. All exchange gains and losses are included in the determination of net income (loss) for the year.

### Basic and Diluted Loss per Share

The Company computes net loss per share in accordance with ASC 260, "Earnings per Share", which requires presentation of both basic and diluted earnings per share ("EPS") on the face of the income statement. Basic loss per share is computed by dividing the net loss available to common shareholders by the weighted average number of common shares outstanding during the year. Diluted EPS gives effect to all dilutive potential common shares outstanding during the year including stock options, using the treasury stock method, and convertible preferred stock, using the if-converted method. In computing diluted EPS, the average stock price for the year is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Potentially dilutive shares are anti-dilutive due to losses in both years.

Were the 19,000 Preferred Shares converted prior to May 31, 2021, they would equal 19,000,000 common shares which would result in a fully diluted amount of 114,323,580 common shares issued and outstanding which Mr. Lachapelle would then beneficially hold (post Pref conversion) 27,000,000 of common shares as of August 31, 2021.

#### Income Taxes

Under ASC 740, the Company accounts for income taxes using the asset and liability method. Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for future tax consequences attributable to temporary differences between the financial statements carry amounts of existing assets and liabilities and loss carry forwards and their respective tax rates expected to apply to taxable income in the year in which those temporary differences are expected to be recovered or settled. The Company is incorporated in the State of Delaware with the same tax jurisdiction.

#### Fair Value.

The Company has adopted ASC Topic 820, "Fair Value Measurements and Disclosures" for both financial and nonfinancial assets and liabilities. The Company has not elected the fair value option for any of its assets or liabilities.

# Use of Estimates.

The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, and include certain estimates and assumptions, which affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expense during the reporting period. Accordingly, actual results may differ from those estimates.

#### Reclassifications.

Prior period financial statement amounts have been reclassified to conform to current period presentation. The reclassifications have no effect on net loss or earnings per share.

#### Recent Accounting Pronouncements.

Management has considered all recent accounting pronouncements in the current period and identified no pronouncements that would have an impact on our financial statements.

#### Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

#### Common Stock

No new Common Stock issuances have occurred since May 31, 2016.

### Preferred Stock

No new issuances have occurred since May 31, 2015.

#### Voting

Each share of Preferred Stock shall have ten thousand (10,000) votes per share, and shall entitle the holders the right to vote, either together with holders of the Corporation's common stock, or as a separate class of shares, on any matter upon which the shareholders of common stock of the Corporation may vote.

Based on 95,323,580 shares of common stock issued and outstanding as of May 31, 2021, which Mr. Lachapelle beneficially controls 8,000,000 representing 8.4%. Excludes 19,000 shares of Preferred Stock beneficially held by Mr. Lachapelle, which hold 190,000,000 votes. If the votes of the preferred stock are considered, Mr. Lachapelle would beneficially hold 69.4% of the voting securities of the Company.

#### Conversion

Each share of Preferred Stock shall upon approval of the Board of Directors, be convertible into 1,000 shares of the Corporation's common stock (the "Common Stock").

# Anti-Dilution

Preferred Stock are anti-dilutive to reverse splits, and therefore in the case of a reverse split, are convertible to the number of Common Shares after the reverse split as would have been equal to the prior to the reverse split.

#### **Dividends**

The holders of Preferred Stock shall be entitled to receive dividends when, as and if declared by the Board of Directors, in its sole discretion on an as converted basis.

# Liquidation Rights

Holders of Preferred Stock shall be entitled to be paid out of the assets of the Corporation an amount equal to \$1.00 per share or, in the event of an aggregate subscription by a single subscriber for Preferred Stock in excess of \$100,000, \$0.997 per share (as adjusted for any stock dividends, combinations, splits, recapitalizations and the like with respect to such shares) (the "Preference Value"), plus all declared but unpaid dividends. Based on the 19,000 Preferred shares held by Mr. Lachapelle, would resulting \$19,000.00 plus any declared but unpaid dividends.

### Due to Related Party

The following amounts are owed to Mr. Lachapelle, an executive and a shareholder of the Company:

- Borrowings of \$112,104 and \$75,373 as at August 31, 2021 and 2020 respectively, there is no imputed interest on such borrowing. These balances are an accumulation of expenses that Mr. Lachapelle incurred in running the business and are not based on a formalized agreement.
- Notes Payable of \$6,100 as at August 31, 2021 and 2020 respectively. The notes do not carry any interest.

#### Subsequent Events

The Company submitted updated Articles of Incorporation on August 17<sup>th</sup>, 2021 to increase the Total Authorized Common Shares from 200,000,000 to 1,000,000,000 to the State of Delaware. This increase was to enable any further issuance of stock or a future acquisition(s) that might arise. However, upon further inquiries for confirmation, the Stare of Delaware did not issue the Certification until October 15, 2021. The delay in Certification was attributed to a simple, nonmaterial clerical error. The Company disclosed the Certificate on October 19, 2021 via OTC Markets. We have evaluated all other subsequent events through the date the financial statements were available to be issued in accordance with the

Subsequent Events Topic of the FASB ASC 855, and have determined that no other subsequent events occurred that are reasonably likely to impact these financial statements.

#### Income Taxes

Pursuant to ASC 740, income taxes are provided for based upon the liability method of accounting. Under this approach, deferred income taxes are recorded to reflect the tax consequences on future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end.

At May 31, 2021 and 2020, the Company had gross deferred tax assets calculated at an expected blended rate of 21% and 21%, respectively, of approximately \$555,126 and \$553,184, respectively, principally arising from net operating loss carryforwards for income tax purposes. As management of the Company cannot determine that it is more likely than not that the Company will realize the benefit of the deferred tax asset, a valuation allowance of \$555,126 and \$553,184 has been established at May 31, 2021 and 2020, respectively.

Topic 740 in the Accounting Standards Codification ("ASC 740") prescribes recognition threshold and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC 740 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. At May 31, 2021, the Company had taken no tax positions that would require disclosure under ASC 740.

The Company has analyzed its filing positions in all jurisdictions where it is required to file income tax returns and found no positions that would require a liability for unrecognized income tax benefits to be recognized. We are subject to examinations for all unfiled tax years. We deduct interest and penalties as interest expense on the financial statements.

There is no unrecognized tax benefit included in the balance sheet that would, if recognized, affect the effective tax rate.

At May 31, 2021, the Company has net operating loss carryforwards of approximately \$2,643,458. The net change in the allowance account was an increase of approximately \$1,943 and \$2,834 for the years ended May 31, 2021 and 2020, respectively.

#### Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of our financial condition should be read in conjunction with the financial statements and notes to financial statements included elsewhere in this filing. The following discussion (as well as statements in Item 1 above and elsewhere) contains forward-looking statements within the meaning of the Private Securities Litigation Act of 1995 that involve risks and uncertainties. Some or all of the results anticipated by these forward-looking statements may not occur. Forward-looking statements involve known and unknown risks and uncertainties which may affect the nature and potential viability of our business strategy; and private or public sector demand for products and services similar to what we plan to commercialize. We disclaim any intention or obligation to publicly announce the results of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

Unless otherwise indicated or the context otherwise requires, all references in this report to "we", "our", "us", the "Company" or similar terms refer to Enterra Corporation, a Delaware corporation.

# 1. Results of Operations

The Company did not generate any revenue during the quarter ended August 31, 2021, or 2020. The absence of revenue is due to no operations. Management does not anticipate that the Company will generate any revenue until such time as the Company develops a plan to merge or develop products, which is contingent on the receipt of financing.

General and administrative expense for the quarter-ended August 31, 2021, and 2020 was \$32,570 and \$649 respectively. General and administrative expenses include, but is not limited to, consulting expense, office and insurance expense, accounting, and other costs to maintain compliance with the Company's reporting requirements to the Securities and Exchange Commission (the "SEC").

For the quarters ended August 31, 2021, and 2020, the Company recorded net loss of \$32,570 and \$649 respectively. The increase in net loss during 2021 is primarily due to completing the financial audit and update filing with regulatory bodies.

The Company expects to incur further losses in future periods until it is successful in obtaining necessary financing.

#### Liquidity and Capital Resources

At August 31, 2021, the Company had cash and cash equivalents of \$14,268 as compared to \$1,234 at August 31, 2020.

The Company has not generated revenue from operations to meet its operating expense. The Company requires additional funding. The Company has historically financed its operations primarily through issuances of equity and the proceeds of debt instruments or borrowing form the Directors.

The Company believes that the ability of the Company to re-commence operations, and therefore continue as a going concern is dependent upon its ability to do any or all of the following:

- obtain adequate sources of funding to pay operating expense and fund long-term business operations; and
- manage or control working capital requirements by reducing operating expense.

There can be no assurance that the Company will be successful in achieving its short- or long-term plans as set forth above, or that such plans, if consummated, will enable the Company to obtain profitable operations or continue in the long-term as a going concern.

# Off-Balance Sheet Arrangements

We have not entered any transactions with unconsolidated entities in which we have financial guarantees, subordinated retained interests, derivative instruments or other contingent arrangements that expose us to material continuing risks, contingent liabilities or any other obligations under a variable interest in an unconsolidated entity that provides us with financing, liquidity, market risk or credit risk support.

# **Critical Accounting Policies**

The accounting policies mentioned in the accompanying financial statement is not intended to be a comprehensive list of all our accounting policies. In most cases, the accounting treatment of a particular transaction is specifically dictated by accounting principles generally accepted in the United States.

#### **Deferred Taxes**

We recognize deferred tax assets and liabilities based on differences between the financial statement carrying amounts and tax bases of assets and liabilities, which requires management to perform estimates of future transactions and their respective valuations. We review our deferred tax assets for recoverability and establish a valuation allowance if it is more likely than not that the Company will not realize the benefit of the net deferred tax asset.

Controls and Procedures

# Evaluation of disclosure controls and procedures.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the design and operations of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of May 31, 2021. Based on this evaluation, and in light of the material weaknesses which consist of a lack of adequate segregation of duties over authorizing, recording, and disbursing expenses, the Company's Chief Executive Officer, who also serves as its Principal Financial Officer, concluded that our disclosure controls and procedures were not effective.

Changes in internal controls over financial reporting.

There has been no change in our internal control over financial reporting that occurred during our most recent fiscal year that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. There has been no progress towards remediating our previously disclosed material weakness due to the lack of funding.

# Legal Proceedings

As of the date hereof, there are no material pending legal proceedings to which we are a party to or of which any of our property is the subject.

#### Risk Factors

Our results of operations and financial condition are subject to numerous risks and uncertainties. You should carefully consider these risk factors in conjunction with the other information contained in this Report. Should any of these risks materialize our business, financial condition and future prospects could be negatively impacted.
